

HARNESSES ACCESSORIES

Be Safe.. Think

SUSPENSION TRAUMA STRAP

APPLICATIONS

This product should be installed where harness and leg straps intersect. Bsafe suspension trauma straps are designed to avoid the effects of suspension trauma.

FEATURES

- Zip lock pouch
- Light Weight
- Adjustable
- Allows user to stand in harness after fall
- Universal compatibility with all harnesses
- High tenacity webbing straps, with loop in one pouch and hook in the other
- Two zip up pouches, one for each side of the harness
- Allows the suspended user to stand up in their harness to relieve pressure after falling, preventing suspension intolerance
