PERFORMANCE SYSTEMS

ADAPT'

Sole unit technology designed to maximise adaption to uneven terrain and reduce injury risks

decoupleGROOVE™

Offset flex groove design along the length of the sole to provide flexibility to allow a smooth transition from initial contact to foot flat and improve terrain adaption.

ADAPTruss

Unique ADAPTruss design provides torsional rigidity, which supports midfoot stability on uneven environments throughout the natural walking gait.

XTNODES

Extreme Terrain Nodes extruded side node design increases platform stability

Ladder**Heel**

Sole design minimizes slip risk on ladders.

asym**BEVEL**

Heel shaped to match the natural heel strike position during walking to maximise contact area and provide a smooth ride

Hydrodynamic

Sole shape and tread pattern engineered to optimise fluid dispersion beneath the foot to minimize slips.

KEY FEATURES

COMFORT

TECH-LITE COMFORT BUILD: A revolutionary multi-layer comfort system with a 3D molded anatomical insole made from high-performance materials for superior cushioning and support.

POLYURETHANE MIDSOLE: Designed for high rebound and comfort, featuring dedicated zones for extra support around the heel and ball of the foot.

DURABILITY

H2O RESISTANT UPPER: All-leather construction ensures long-lasting protection against water and wear.

DESMA INJECTED MIDSOLE: Eliminating glue means greater longevity and resilience.

ENCASED LEATHER YKK SIDE ZIP PROTECTION: Provides added durability and easy access.

FUNCTIONALITY

7 EYELET UPPER DESIGN: Offers a customized fit with unique adjustment options.

SUSTAINABLE MATERIALS: Laces and internal wall linings are crafted from 100% recycled polyester, promoting eco-friendliness.

UNDERFOOT PENETRATION PROTECTION: Features a lightweight, flexible composite layer in the midsole for added safety.

LADDER HEEL DESIGN: Enhances safety for climbing or descending ladders or stairs and navigating rugged terrain.

The Mack Ladies Octane Zip 2.0 safety boot is designed for those who demand comfort, durability, and functionality in their work boots. Experience the difference today!
