Eye injuries and eye damage can be commonplace, particularly in industrial environments where the risks of chemical splash, flying debris, or even tools and protruding objects can be high. Eye strain and ocular damage from ultraviolet (UV) radiation is also a concern. Frontier and Mack Safety Eyewear offer the solution.

All the safety eyewear within our range is manufactured and certified to Australian Standards AS/NZS 1337.1:2010 to provide a minimum 99 per cent protection against harmful UV radiation from the sun.

Within the range are clear mirror lenses with the latest anti-glare coatings, high quality polarised lenses and graduated tint lenses for optimum vision. Plus there’s a range of styles to suit every worker and every job. All Frontier and Mack Safety Eyewear come with the appropriate, clearly visible lens markings so that you can be assured they are compliant with the highest safety standards.
### Mack Safety Spec Duo Clear
