

Frontier's Australian made TG type 1 and type 2 industrial safety helmets come in vented, non-vented and mining configurations. All are regularly batch tested by an independent test lab to meet Australian Standards AS/NZS 1801 and are fully certified. Certification is available upon request.

New to Frontier is the Australian made Clearview range, a transparent hard hat that's available in a variety of colours. The unique transparent design of the Clearview hard hat maximises peripheral vision and reduces neck strain caused by the need to continuously look up.

Indoor/Outdoor Use
UV 400
RATED

- UV400 stabilised suitable for indoor and outdoor use
- Unique clear view through helmet peak

- High impact polycarbonate
- Vented for increased wearer comfort
- Available in a large range of colours
